Bognor Regis Autism & Send Support

Bognor Regis Autism Support Service is a local free parent led group for all children with any special educational needs whether they have a diagnosis or not. It has been created by parents for parents and as such all support groups should be run by a parent of a child with special educational needs or such a person that has had a close working relationship with children with send needs.

Our Mission

Our mission is to provide emotional support and advice to parents who are worried their children may have special educational needs as well as parents whose children already have a diagnosed need. Our mission is to provide free services to these parents funded solely by fundraising, bids and donations. We aim to use volunteers to provide these services although understand there are some services we may have to pay for. These costs should not be passed to our service users. Our aims are:

- To provide emotional Support and advice
- To provide advice with Signposting
- To provide a chance to meet other parents in similar situations
- To provide weekly support groups
- To provide monthly evening groups
- To provide a private Facebook group for parents to offer peer support
- To provide a Facebook page updated with information of support available in the local area
- Networking with other local groups in the area to be able to support members

We are now running a parent support group in Chichester – please see enclosed poster for details. Please could you pass our details on to any parent at your school who may be interested in our groups.
