WHAT MAKES THE NETWORK WORK?

Members of the Youth Cabinet will be looking to gain insights from their school based counterparts – the young people in each school working towards greater inclusion and representation in their setting – to discuss how to continue to develop all their roles effectively. Students attending will be able to offer their insights in discussions involving:

- Meeting the REA campaign group and hear about their experiences and roles.
- Consider how activists make improvements to their roles and groups by listening to one another's experiences and viewpoints.
- Consider what the REA network brings to us as individuals, schools AND wider communities.
- Share plans that individual schools have for the coming year/have already done!

Racial Equality Conference 2024!

Members of the Youth Cabinet will update you all about the conference they are in the process of planning for the Summer Term "*A Celebration of Multiculturalism.*"
